We have been serving

Tema Plast, which is respectful of nature and has acquired a reputation for quality, can meet all

Since 1986

Since 1986

TemaPlast for production & global trading of all kinds of plastic-based bags, stretch film & gloves.

- Our main factory is located in Istanbul and has 5,000 m2 closed and 9,000 m2 open area.
- Production lines of TemaPlast have been working based on 7/24 manufacturing system.
- Our group companies produce 10,000 tons per year. Tema Group has 4,000 m2 closed area warehouse and distributes 50 trucks monthly.
- We are exporting more than 30 countries most of them is to European countries.

- It is important to note that recycling is crucial for the environment. Considering this importance, we **recycle 5000 tons** of plastic annually.

- Our company utilizes the latest technological advances in the production cycle and adopts an environmentally friendly production philosophy by using recycled raw materials.

POLYETHYLENE FILM

- The technologies we use in our production. We can produce film any colour, size and thickness for your requirement. Our main focus is the sustainable quality. Therefore, we are applying quality test in production from beginning to end.

Our main focus is the sustainable quality. The material we use in our production is mainly recycled. Moreover, our technology enables us to use from recycled raw material to bio degradable and food grade film.

PRINTING & CUTTING

- With helping our well-trained staff and professional machines we are able to print customized logo and illustrations in 4 different colors.

- All cutting processes are handled carefully by helping our well-trained staff and Professional machinery systems.

PRAVITE LABEL

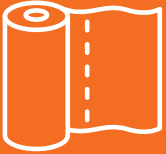

- Our aim is to increase business of our customers. Therefore, the product we produce for can be you own and label with the best quality.

TRASH BAGS

BOTTOM STAR SEAL

ROLL WITH
PERFORATED

Material:	HDPE ,MDPE
